

Medical Center Laboratory

An affiliate of West Tennessee Healthcare

May 26, 2016

Dear Mr. Wells,

I am happy to say we have been satisfied customers of the SQA-V gold analyzer since April, 2012. In our laboratory, we performed semen analysis manually. This was time consuming and more hands on. The SQA-V gold is definitely a time saver. It is easy to use and requires very little maintenance.

I would recommend the SQA-V gold to any laboratory that performs semen analysis on a routine basis. If you have any questions about this analyzer, please email me at melissa.bright@wth.org.

Sincerely,
Melissa Bright, MLTIII, ASCP
